

# Year-Round Rain Barrel Sales

The Annual One-day Truckload Sales Event will no longer be held. Rain barrels will be available for sale on an ongoing basis at the City's landfill site beginning in May.

*Rain barrels may not be exactly as shown*

**Collect rainwater runoff from your rooftop and direct it to gardens and lawns**

# Top 5 Reasons to Use a Rain Barrel

1. Rainwater is FREE, saving you money on your water bill
2. Water with rainwater at any time, regardless of watering restrictions
3. Rainwater is preferred to grow healthy and lush plants
4. Control moisture levels around your house foundation
5. Protect our rivers and streams from runoff pollution by diverting water from storm sewers

## No more lineups!

For the sake of customer convenience, rain barrels will soon be available for purchase year-round at the City's Landfill site located at 20 Morrison Road.

Rain barrels are child-proof and mosquito resistant, featuring 50% or more recycled plastic content, a dispensing hose with an on/off valve, series hook-up and an overflow hose.

The Morrison Road Landfill site is open from 8:00 AM to 5 PM, Mondays through Saturdays.

More details regarding the 2018 program coming in May.
