

HIGH WATER BILL ADJUSTMENT REQUEST FORM

The City of Brantford High Water Bill Adjustment Policy ("Policy") provides residential customers, limited financial assistance in regard to the repair of high water leaks on private property, excluding any water leaks in the water service pipe and external taps. Commercial, industrial and income producing residential rental property owners are not eligible under the Policy. Residential tenant account holders are eligible subject to meeting all other requirements of the Policy.

This form must be completed and filed with the City of Brantford no later than 120 calendar days after the date of final repair(s). Failure to request a review within this time period waives your opportunity for an adjustment. An adjustment may only occur after all leaks have been repaired and verified. An actual meter reading may be required. Please note that by making this request, you are consenting to the City or its representative having the right of access to your property for the purposes of an inspection to determine whether the leak was repaired within 30 calendar days of a City request for such an inspection. **If an adjustment is granted, this is a one-time only adjustment per property every (10) ten years.**

Bill adjustments will only be granted where water usage EXCEEDS 3 TIMES (300%) the AVERAGE consumption of the previous 12 months. If no history is available, meter readings will be obtained to project normal usage. If projection is not possible, actual consumption of similar customers will be used to determine normal usage for the adjustment calculation.

Claims will not be approved for usage above the customer's average monthly consumption due to watering of sod, gardening, filling swimming pools or whirlpools, washing vehicles, etc. as this describes water services knowingly used by the customer. Water loss due to theft, vandalism or construction damage is not covered under the Policy. Resolving these issues is the responsibility of the customer.

No adjustments will be granted if a dwelling is unoccupied and/or vacant for 72 hours or more. For extended absences, customers should consider shutting off the water supply (with the exception where water is used for heating purposes) and draining all the pipes and appliances.

No adjustments will be granted if the leak was caused by a third party from whom the customer is able to recover their costs.

No adjustments will be granted where high water usage is identified from a "catch-up" billing following a minimum of 2 consecutively estimated billings. Actual meter readings are necessary for bills to reflect actual higher water usage to trigger the associated leak detection and subsequent any leak repairs. Customers are advised on their water bill if the billing is based on an estimated read.
